Saturday Night's Report.

CAIRO, Nov. 1. Special to Chicago Journal .- We have an important rumor from below that Mobile is ours. It comes from a source that entitles it to credit. Farragut's fleet has probably done its work.

From a correspondent at Corinth I learn that no attack was made by the rebels, up to last night, and the prospects that one will be made are not good. The fact is, there has been a big commotion with very little foundation, and it is now morally certain that the rebels have not come north of Holly Springs in force. On the contrary, we have reason for stating that the rebels at Holly Springs are looking for an advance upon them by Gen. Grant's forces. Our scouts have been as far south as Ripley, and have scoured the country for miles around and found no enemy. Villipique's brigade has left Holly Springs for Meridian. A conflict of jurisdiction has sprung up between Van Dorn and Pemberton. When Van Dorn started north, it was considered certain that he would break the tederal lines and pass into Tennesseo und Kentucky. Gen. Pemberton was sent therefore to take his place in Mississippi, but Van Dorn was beaten back and refuses to give up his command. Pemberton is forced back to Jackson, Miss., to await or-

Lackland, a prominent lawyer of this city, was arrested and committed to the military prison, at noon to-day, by order of the provost marshal general. The arrest was made consequent upon a speech livered last night at a democratic meeting held at the court house. In the order

for his arrest he is charged with encouraging rebellious opposition to the government in its efforts to suppress the rebellion, publicly abusing the government and loyal people of the United States, defending the rebellion by charging its origin to have been with the loyal people of the United States, and publicly depreciating the currency of the country. Saturday Night's Report.

CAIRO, Nov. 1. Special to Chicago Journal .- We have an important rumor from below that Mobile is ours. It comes from a source that entitles it to credit. Farragut's fleet has probably done its work.

From a correspondent at Corinth I learn

that no attack was made by the rebels, up to last night, and the prospects that one will be made are not good. The fact is, there has been a big commotion with very little foundation, and it is now morally certain that the rebels have not come north of Holly Springs in force. On the contrary, we have reason for stating that the rebels at Holly Springs are looking for an advance upon them by Gen. Grant's forces. scouts have been as far south as Ripley, and have scoured the country for miles around and found no enemy. Villipique's around and found no enemy. Villipique's brigade has left Holly Springs for Meridian. A conflict of jurisdiction has sprung up between Van Dorn and Pemberton. When Van Dorn started north, it was considered certain that he would break the tederal lines and pass into Tennessee and Kentucky. Gen. Pemberton was sent therefore to take his place in Mississippi, but Van Dorn was beaten back and refuses to give up his command. Pemberton is forced back to Jackson, Miss., to await or-

The rebel authorities have not discountenanced guerrilla warfare on the river, and the elected secesh families in Memphis will have to leave. Gen. Bragg is now reported at Cumber-

land Gap. His wagon trains of captured plunder, says the Grenada Appeal, is over thirty miles long.
A paper at Jackson, Mississippi, estimates the number of bales of cotton in Louisiana and Mississippi at over one mil-

The following rebels have been appointed lieutenant generals by Jeff Davis: Jackson, Longstreet, Polk, Hardee, Pemberton, Kirby Smith and Holmes.

Six hundred prisoners arrived last night from Louisville. They will be detained here for the present. Maj. J. Forth, 1st Indiana cavalry, has heen promoted to Lieut. Colonel of the 5th Indiana cavalry. He is just from Helena, and says the cutire force of rebels at Clarendon, Batesville, Jacksonport and De Sark

does not exceed 8,000. Sr. Louis, Oct. 31. James R. Lackland, a prominent lawyer of this city, was arrested and committed to the military prison, at moon to-day, by order of the provost marshal general. arrest was made consequent upon a speech delivered last night at a democratic meeting held at the court house. In the order for his arrest be is charged with encouragfor his arrest he is charged with encourag-ing rebellious opposition to the government in its efforts to suppress the rebellion, pub-licly abusing the government and loyal people of the United States, defending the rebellion by charging its origin to have been with the layal people of the United States, and publicly depreciating the cur-

rency of the country. GREENFORT, Nov. 1. The Suffelk Co. Bank at Sag Harbor was broken open last night and robbed of \$35,000—\$8,000 in bills, and the balance in bonds. One thousand dollars is offered for the detection of the burglars and the re-

covery of the money.

DAYTON, O., Nov. 1. J. F. Balimeyer, editor of the Dayton Empire, was shot deal this morning, by Henry M. Brown, a hatter of this city. The difficulty grew out of a personal misunderstanding between the parties, occa-sioned by the shooting of a dog belonging to Ballmeyer, by one of Brown's sons. Brown gave himself up, and was taken to juil. The affair occasioned much excitement on our streets.

NEW YORK, Nov. 1. The steamers Mantauzrs and Creele have arrived from New Orleans. The enpure of Sabine Pass is confirmed Oct. 1st by the U. S. steamer Kensington, Capt. Croker, and the schooners Seaman and Jones. Capt. Crosenther with a small body advanced into the country, and defrated two bands of rebels. The results of his operations were the capture of one fort, two choicest varieties of APPLES, camps, thirty buildings, and ten rebel vessels, which were burned.

Foreign News. The Cosarwitch race was won by Harlington; Umpire was fourth. The Paris Bourse on the 14th was ex

but a slight improvement on last year. The Prussian chamber of deputies has declared the vote of the upper house, on the Budget, null and void, and the report of the committee unanimously adopted. session was then closed by a speech from the throne, delivered by the president of the ministry, in which the government de clared its intention to carry out the Budget as originally laid before the house. Cal. Guppy's Acceptance.

The Madison papers contain a letter from Col. Guppy, acknowledging the recep tion of the news of his nomination for congress. After saying that "when I received notice that I had been nominated by a democratic convention, I decided that I would not utter a word on the subject, but leave everything to the good people of the district, who ought to know me well," he changed his mind, and declares his position

"Until peace is restored and the supremacy of the constitution and the laws established throughout our land, I think that the course of every legislator should be that of a patriotic citizen merely, and not not that of a partisan; but such as the times may comand, 'without regard to, past political difference. Our first duty should be to make the country a unit, and in that work I shall try to do my whole duty, whether I am in the field or in the councals of the nation."

It would have been more satisfactory if the Colonel had stated by uhat means he proposes "to make the country a unit." This task, under present circumstances, is Fisher 3; Douglass 1. simply impossible. The democratic party, whose nominee Col. Guppy is, is opposed to the measures the government is now adopting to put down the rebellion, while | inated. the republican party is heartily supporting these measures. Will Col. Guppy labor for unity" by abandoning and opposing these measures; or will he strive for it by sustaining them? If he sustains them, he will hetray the party which nominated him, and will incur its hostility. If he opposes them, he destroys every prospect of "unity" by throwing off the republican party and · very prospect of peace except by a suisgraceful surrender to the terms of the rebels. The truth is, Col. Guppy, notwithstanding his smooth talk, will be a partisan and a democratic partisan at that. He cannot break away from his party, and has no disposition to do so. He was nomina-1ed because he was a partisan, and any man who believes he would not be thoroughly imitators, but the latter are advancing on

BOASTING OF THE REBELS OVER DEMO-CRATIC SUCCESSES. -- An officer in the 13th Wisconsin regiment writes home that the secessionists of Tennesies are jubilant over the success of the democratic tickets in Indiana and Ohio. They tell our soltiers that they will soon be between two fires, and that they, the rebels, have more friends in the north than there are union men in the south. We need not say that this state of things disturbs and disheartens our volunteers, and that they will look as anxiously for the result of the elections to be held to morrow as to the termination of a battle with the rebel enemy.

WASHINGTON, Nov. 1. Buchanan, through the National Intelligencer, replies at length to Lieut. General Scott, whose recent publication he considers an undisguised consure of his conduct during the last months of his administration, in regard to the seven cotton states now in rebellion. In noticing the first and most important charges, namely, his refusal to immediately garrison nine enumerated fortifications seattered over six of the southern states, according to Scott's recommendation, he says the refusal is attributhe time honored custom, I do hereby appoint THURS. I ted without the least cause to the influence of Gov. Floyd. All my cabinet must be witness that I as President was responsible for all the acts of the administration, and it is certain that during the last six months previous to the 29th day of December, 1860—the day on which he resigned his of fice at my request—he exercised less influence than any other member of the cabi-

Mr. Holt was immediately thereafter transferred from the post office department to that of war, so that from this time till the 4th of March, 1861, which was by far the most important period of the administration. He performed the duties of secretary of war to my entire satisfaction. He then proceeds to show there is one answer both easy and conclusive if other valid reasons did not exist. Namely, there was no available troops within reach which could be sent to these fortifications. To have attempted military operations of a scale so extensive by any means within the President's power would have been simply absurd. Of this he says referring to his supplimental views of the 30th of Oct., Gen. Scott himself seems to have been convinced; these views both original and supplimentary he says were published by Gen. Scott, in the National Intelligencer on the 18th of Januery, 1861, at a most important and critical period of his administration.

The publication at that time could do no nossible good, and might have done much narm; to have published them without the President's knowledge and consent, was as much in violation of the sacred confidence which ought to prevail between the commanding general of the army and the commander in chief, as it would have been for the secretary of war to have published the same documents without authority. What is of more importance, this publication was calculated injuriously to affect the compromise measures then before congress and Aron-Rufus Breed, M. Harper, and H. the country, and to encourage the secessionists in their mad and wicked attempt of the department of the Ohio, arrived shatter the Union into fragments.

From the great respect I then entertained for Gen. Scott I passed it over in ailonce. Col. Guppy's Acceptance.

The Madison papers contain a letter from Col. Guppy, acknowledging the reception of the news of his nomination for congress. After saying that "when I received notice that I had been nominated by democratic convention, I decided that I would not utter a word on the subject, but leave everything to the good people of the district, who ought to know me well," he changed his mind, and declares his position as follows:

" Until peace is restored and the supremacy of the constitution and the laws established throughout our land, I think that the course of every legislator should be that of a patriotic citizen merely, and not not that of a partisan; but such as the times may Conaud, 'without regard to past political difference.' Our arst duty should be to make the country a unit, and Fisher 3; Douglass 1. I shall try to do my whole duty, whether I am in the field or in the councals of the nation."

It would have been more satisfactory if the Colonel had stated by what means he proposes "to make the country a unit." This task, under present circumstances, is simply impossible. The democratic party, whose nomines Col. Guppy is, is opposed to the measures the government is now adopting to put down the rebellion, while the republican party is heartily supporting these measures. Will Col. Guppy labor for · unity" by abandoning and opposing these measures; or will he strive for it by susfaining them? If he sustains them, he will Letray the party which nominated him, and will incur its hostility. If he opposes them, he destroys every prospect of "unity" by throwing off the republican party and every prospect of peace except by a sisgraceful surrender to the terms of the rebels. The truth is, Col. Guppy, notwithstanding his smooth talk, will be a partisan. and a democratic partisan at that. He cannot break away from his party, and has ted because he was a partisan, and any man who believes he would not be thoroughly partisan, if he is elected, deceives himself.

If Col. Guppy had stated distinctly whether he is opposed to or in favor of the President's proclamation; opposed to or in favor of the confiscation law; opposed to or in favor of other specific measures to give vigor and success to our arms in the field; in favor of subduing or compromising at the foundation of our own liberties. with the rebels, he would have been neither "misunderstood nor misrepresented, as he seems to fear he will be. Col. Guppy is a mum candidate, and does not desire or intend to give a definite expression to his pinions and intentions. There is no frankness or honesty in the kind of loose profeszions and general promises he makes.

BOASTING OF THE REBELS OVER DEMO-TRATIC Successes .- An officer in the 13th Wisconsin regiment writes home that the recessionists of Tennessee are jubilant over the success of the democratic tickets in Indiana and Ohio. They tell our sol-Giers that they will soon be between two fires, and that they, the rebels, have more friends in the north than there are union men in the south. We need not say that this state of things disturbs and disheart ens our volunteers, and that they will look no anxiously for the result of the elections to be held to morrow as to the termination af a battle with the rebel enemy.

All who vote the democratic ticket are for the Union and all measures necesyote at the same time for the Ryan address' sary to secure its re-establishment.

PROCLAMATION.

Amidst the manifold victed rules and calamities that nave befailen and surrounded us, threatening the life of our nation, and the lives of so many of its heroic and noble ons, it particularly becomes us to turn with grateful

The horrors and devastations of war, so fiercely raging around us, have not touched the border of our state; excepting the brave men who have railled around our country's flag in this time of peril, our citizens have been allowed to pursue their peaceful avocations; our harvest, though not as abundant as Providence sometimes has pleased to grant us, has yet well compensated the labor bestowed upon it, and well filled our nouses and barns; the savage tribes upon our border ettlements, so threatening at one time to our peace, have been quieted, and kept under surveillance.

WASHINGTON, Nov. 1. Buchanan, through the National Intelliencer, replies at length to Lient. General Scott, whose recent publication he consid ers an undisguised consure of his conduct during the last months of his administration, in regard to the seven cotton states now in rebellion. In noticing the first and most important charges, namely, his refusal to immediately garrison nine enumeranumite goodness of flod has voucheafed to us during ted fortifications scattered over six of the his thinly clad soldiers were forced to southern states, according to Scott's recommendation, he says the refusal is attributhe time honored custom, I do hereby appoint THURS. ted without the least cause to the influence of Gov. Floyd. All my cabinet must be witness that I as President was responsible for all the acts of the administration, and it is certain that during the last six months previous to the 29th day of December, 1860—the day on which he resigned his office at my request-he exercised less influence than any other member of the cabinet.

Mr. Holt was immediately thereafter transferred from the post office department to that of war, so that from this time till he 4th of March, 1861, which was by far the most important period of the administration. He performed the duties of secretary of war to my entire satisfaction. He then proceeds to show there is one answer both easy and conclusive if other valid reasons did not exist. Namely, there was no available troops within reach which could be sent to these fortifications. To have attempted military operations of a scale so extensive by any means within the President's power would have been simply absurd. Of this he says referring to his supplimental views of the 30th of Oct., Gen. Scott himself seems to have been convinced; these views both original and supplimentary he says were published by Gen. Scott, in the National Intelligencer on the 18th of Jannery, 1861, at a most important and critical period of his administration.

The publication at that time could do no possible good, and might have done much harm; to have published them without the President's knowledge and consent, was as much in violation of the sacred confidence which ought to prevail between the commanding general of the army and the commander-in-chief, as it would have been for the secretary of war to have published the same documents without authority. What is of more importance, this publication was calculated injuriously to affect the compromise measures then before congress and the country, and to encourage the secessionists in their mad and wicked attempt to shatter the Union into fragments.

From the great respect I then entertained for Gen. Scott I passed it over in silence. Mr. Buchauan then explains why he refused to send 300 men to reinforce Major Anderson at Fort Moultrie. Among other reasons he says he believed, as the events proved, that Major Anderson was then in no danger of attack; indeed his command were treated with marked kindness by the authorities and people of

Under these circumstances to have sent such force there would have been only to impair the hope of compromise, to provoke collision and to disappoint the country. Having treated of the charge of having kept back reinforcements from Pensacola, Buchanan replies to the charge of having also kept them back from Charleston, saying that neither a truce, nor a quisi truce, nor anything like it, was ever concluded between the President or any human author-Lumpa nathur. ity concerning Charleston. On the contra-ry, the South Carolina commissioners first and last, and all the time, were informed that the President never could, and would never surrender Fort Sumter, nor deprive himself of the most entire liberty to send reinforcements to it when it was believed to be in danger, or whenever it might be

requested by Major Anderson.

Mr. Buchanan then alludes to other points in Gen. Scott's views, and says that he can solemnly declare before God and his country that he cannot reproach himself with any act of commission or omission to endanger its happiness, its prosperity, and its safety, since the existing troubles

The vessel our city ever witnessed. A sash of white and cargo was a total loss. The Farmer satin, having upon it a bust of Fremont in gold, was also presented by the ladies. Louisville, Nov. 1.

Special to Chicago Tribune.—Gen. Rose-crans and staff left for headquarters this morning. With their departure was a general stampede of shoulder-straps of all patterns, which have been very plenty here for the past ten days. Yeaman has been elected a representa-

tive to congress from the 1st district of this state in place of Gen. James S. Jackson, who resigned to enter the army and was killed at Perryville.
Dr. Dewall, a well known guerrilla chief,

was killed in a skirmish near Owensboro on Wednesday last. He was a New Yorker by birth. Gen. Jeff. C. Davis arrived in this city

to-day and delivered himself up to the civil authorities to be tried for masslaughter in killing Gen, Wm. Nelson. He was admitted to bail, and has gone to his command

with the army of the Cumberland.

Maj. Gen. Wright, commander in chief
of the department of the Ohio, arrived here to day.

To-Day's Report. [Reported Exclusively for the Daily Gazette.]

MORNING DISPATCHES.

WASHINGTON, Nov. 2. Special to Herald.—A scouting party in the direction of Dumfrees report that they met a body of rebel cavalry about seven miles this side of that place, and were compelled to retreat. They obtained informa tion that rebel reinforcements are constant ly arriving at Warrenton. To-day General Halleck, attended by his staff, visited the 155th New York regiment, known as the Halleck Infantry, commanded by Colonel Garrard. It is the first visit of this character which has been made by Gen. Halleck since he has been General in-chief.

The advance which so far has taken place, accellerated to a rate which will ere long bring us to the main body of the enemy, or at least to where they are supposed to be. One of the striking features of the advance, so far, has been the almost entire cessation of straggling. The rebels themselves have set us a good example in this matter.— Hereafter the straggling of officers or men, plainly convicted of being such, are for the first effence to have half their head shaved; a second offence will incur a severer pen alty, and it is under consideration to make death the penalcy of the third.

HEADQUARTERS ARMY OF the POTOMEO, Sunday October 2d, 9 P. M. Gen. Pleasonton came up with the enemy's cavalry and artillery at Phillimont about 11 o'clock yesterday. The fight, which was conducted wholly by artillery, lasted about five hours, when the enemy re tired to Union, a small town three miles beyand. Our loss was one killed and four-teen wounded. The enemy's force consisted of a portion of Stuart's cavalry and one battery; five of them are known to have been killed.

This morning Pleasanton renewed the attack at 8 o'clock. At 10 o'clock he was reinforced by a brigade of infantry; at 1 clock the rebefs fell back from Union, and our troops occupies the town. Our loss up to 3 o'clock to-day was one killed and four wounded. During the action a rebel caison was exploded by one of our shells. The enemy's loss is unknown. The firing in that direction was very Leavy from 3 clock to dark : the result is not known.

day, at Ashby's Gap. In what direction the rebels are moving is not know, the distance being too great. Another portion of our army took possession of Snicker's Gap today. Thirty-eight brigades of rebel troops were, at last advices, advancing up the west side of the mountain, in two columns,-Firing followed, but no more is known. New York, Nov. 2.

A special dispatch says that the rebels are making demonstrations towards Manassas, and had run off a train from Bull Run bridge. General Sigel says: a strong force to repair the bridge and to restore the train to the track. Bayard's force was atttacked at 4 o'clock,

to-day, at Aldie, and is now encamped two miles east of that place. A dispatch from Stabl says that the rebels are repairing the railroad to Manassas. WASHINGTON, Nov. 2. The National Bank Note Company hav-

PHILADELPHIA, Nov. 2. The district commissioners announce of-

ficially that volunteers from Philadelphia Sectia have been captured, the vessels and number 39,851, being 1,431 over the quota required to fill the call for 600,000. Claims for extra credit beyond that ascertained by the enrollment assessors were made by hung! Prior and the rebels generally are and destroyed.

The Washington Star says: The Richmond Examiner quotes gold at 2,50 premium and advancing.
The steamer Ocean Queen from Aspinwall, 25th, arrived this morning with passengers and a million in treasure. She saw nothing of the pirate Alabama.

AFTERNOON DISPATCHES. NEW YORK, Nov. 3.

The steamer Marion from New Orleans, the 24th, Key West the 27th, and Havana 29th, arrived this morning. Vera Cruz dates of the 19th state that most of the French troops had arrived and gone to Orizaba: The gunboat Souliago was at Havana on the 29th coaling. Boston, Nov. 3.

The schooner Gazette, of Oswego, went ashore this morning, about half a mile below this place. She is leaking some. New York, Nov. 3.

The Times has the following: As was reported some time since, Mr. Carpenter, of Orjumay district, Charles county, went one day into Virginia to persuade his son, a volunteer in the rebel army, to return home. While absent from his farm a number of negroes attacked his house early one morning, with the design of mardering the fami They retired, however, at the persuasion of a gun aimed at the crowd from a window by Mrs. Carpenter. These facts becoming known, the neighbors assembled with the intention of hanging all the ne-groes on the farm, but through the remonatrance of their mistress, they were finally let off with 39 lashes on the bare back. These events occurred within sight of our These events occurred gunboats on the Potomac.

Osweco, Nov. 3.

Schooners Onionagon, of Oswego, and Farmer, of Sackett's Harbor, went ashore early this morning a short distance east of here. A terrific gale was blowing at the time and continues unabated. The Ontongan had a cargo of wheat on board, loaded had no cargo on board, and is a total loss. Both vessels were insured. The schooner Flora Watson, bound from Toledo to this port with wheat, and schooner Harriet Ross bound up with salt, collided yesterday morning, two miles from Niagara river.— The Watson sunk in 30 feet of water. The Duty To-Morrow.

The duty of republicans to morrow is to get out EVERY ONE OF THEIR VOTES, stand by their ticket, refusing all propositions to trade, and walching and defeating the tricks of their enemies.

Look Out for Falsehoods:

Falsehoods will be as plenty as blackberries to morrow. The democracy are desperate, and will resort to anything to accomplish their ends. They will not be deterred from making their "next statement" because the first, second, third or fourth one is proved to be false. Watch them, while you labor for the whole republican ticket.

A Slander !

One of the hard-shell, Ryan-address democrats of this city met one of the publishers of the Gazette to day, and earnestly demanded why we had slandered Col. Guppy. When asked to explain how, he declared we had just received by telegraph and published a letter purporting to have been written by him. This "regular" democrat had seen the nameless slip issued by the Monitor, containing Col. Gappy's letter of acceptance, and charged it upon us as a slander!

A MATTER TO BE ATTENDED TO .- There are two companies of volunteers in the 33d regiment, those of Capts. Miltimore and Wemple, recruited in this city and vicinity, which will depart for active service next General McCiellan visited the front this Thursday. We understand they have not morning. A heavy dust was observed, to- been furnished with such hospital supplies by their friends as is usual. It is natural that they should feel this

neglect, and we trust these brave volunteers will not be allowed to leave the state without receiving suitable marks of regard as they richly deserve. We presume Mr. Strasberger, at Benton's cigar store, will take charge of such donations for their hospital as may be left with him, and forward them to Racine. There are only two or three days in which this matter can be at tended to, and we hope it will not be neglected. FIRE .- The dwelling bouse of Eliakim

Thatcher, in the town of La Prairie, was destroyed by fire last Saturday night. It is supposed the fire caught from a stovepipe near the roof. A portion of the household furniture was consumed. This calamity deprives two families of a comfortable home. The house was insured in the Madison Mutual, of which Orrin Guernsey is the agent. The democrats are running a can

INQUIRIES ABOUT SOLDIERS .- Those who write to post surgeous or bospitals making inquiries about sick or wounded soldiers, should be careful to give the name of the regiment, the state from whence they came, and the letter of the company. Without this, no answer need be expected. A postage stamp should also be enclosed, as stamps are scarce in the army.

Dont Trade with Your Enemy. "Union! Union!".

This will be the cry to-morrow, and re publicans will be asked to vote against their own candidates because their opponents are "Union" men. The republican candidates are as good "Union" men as can be found anywhere, and nothing will be gained by deserting them. Besides how much merit is there in the "Union" cry, when one of the delegates in the convention which nominated the democratic "union ticket" declared the democrats were setting a trap for the republicans, and another one. Mr. Winans said he hated republicans like rattlesnakes, but was willing to affiliate with them for the purpose of breaking up their organization. Do republicans wish to aid in breaking up their party for the benefit of men who so cordially hate them? That is the question.

J. BODWELL DOE, Mayor. Funeral of Capt. Bentley.

The funeral rites of Capt. Bentley took place yesterday, and we have seldom witnessed a more impressive ceremonial. A portion only of the participants were able to get into the church, where the services were conducted by the Rev. Mr. Kinney, who presched an able sermon, enforcing the general doctrine that an overruling Providence wisely direc's and controls the affairs of men and of nations. In it, he gave a brief history of Capt. Bentley, and the circumstances attending his death. We underatand that this sermon is to be published in pamphlet form, and we shall transfer to our columns that portion relating personally to Capt. B. The procession, which was very large, formed in the following order; Major J. M. May acting as marshal : .

- 1. Music-Chicago Light Guard Band. 2. Military escort.
- 3. Railroad men on foot.
- 4. Clergy.
- 5. Hearse and bearers. 6. Mourners.

7. Procession of railroad men and citizons, in carriages and ou foot. A special train from Chicago brought Mr.

Smith, the acting president of the C. and N. W. Railway, Mr. Dunlap, the general superintendent, Messra. Tiffinny, Cambridge and other conductors, and many of the em-25c per bushel ployees of the company, personal friends of Capt. Bentley, the engine of the train being dressed in mourning.

The sword worn by Capt. B. in the battle where he so bravely met the enemies of his country was placed on the hearse, stained with the blood it drew on the battle field. I The services at the grave were of the tuşual military character, and were under the charge of Lieut. Aiken. The officers of the company with which

Capt. B. was so long and a honorably connected, have been unremitting in their efforts to obtain the body for burial by his friends at his own home, and we understand intend to erect a monument to his memory. Their efforts could not have been more deservedly given, or their liberality more worthily bestowed. The Enemy will be Wide-Awake

Another Green Sell!

To the Voters of the 2d Assembly District:

Erastus Green, of Harmony, came to Lima

Centre, representing that he came at the

request of a majority of the republican vo-

ters of the town of Harmony for the pur-

pose of inducing Edward Vincent to be-

come an independent candidate for Assem-

blyman in this district. Mr. Green pre-

sented a call, purporting to be signed by

six or eight prominent republicans of Har-

mony, making the same request. Mr.

who acted as delegates from Harmony and

secured the nomination of Mr. Spaulding,

were never appointed by the people, but se

cured seats in the convention by making

out their own credentials; that, therefore,

Mr. Vincent was the legal choice of the

convention, he having a very large majority

of all the other delegates. In proof of the

statement, be referred us to prominent re-

publicans of Harmony. Upon the strength

of these representations, we, the under-

signed, personal and political friends of Mr.

Vincent, urged him also to consent, and

finally overcame his objections, although

he had previously persistently refused all

importunities of the kind. Upon a search-

ing investigation of the facts in the case,

we discovered that these statements were

fulse and fraudulent in every particular,

The language of nature and experience demonstrates that whoever would enjoy the pleasures of food—the eauties of landscapes—the joys of companionship richness of literature-or the honors of station and renown—must greserve their health.

The effect of foul injurious food entering the stomach, is to derange the digestive organs. and produce headache, loss of appeli'e, unrefreshed sleep incop seity to perform any mental or s hysical duty, de, and are the symptoms of that herrid disease

Harmony, Jamesville,

The following was received too late for

publication in our paper of Saturday, ex-

cept in a few copies. It shows that Eras-

tus is at his congenial work of mischief

and hesitates at no sort of deception or

falsehood to accomplish his purposes .-

To the Voters of the 2d Assembly District:

ters of the town of Harmony for the pur-

pose of inducing Edward Vincent to be-

come an independent candidate for Assem-

blyman in this district. Mr. Green pre-

sented a call, purporting to be signed by

six or eight prominent republicans of Har-

mony, making the same request. Mr.

Green represented that the four gentlemen

who acted as delegates from Harmony and

secured the nomination of Mr. Spaulding,

were never appointed by the people, but se-

cured seats in the convention by making-

out their own credentials; that, therefore,

Mr. Vincent was the legal choice of the

convention, he having a very large majority

of all the other delegates. In proof of the

statement, he referred us to prominent re-

publicans of Harmony. Upon the strength

of these representations, we, the under-

signed, personal and political friends of Mr.

Vincent, urged him also to consent, and

finally overcame his objections, although

he had previously persistently refused all

importunities of the kind. Upon a search-

ing investigation of the facts in the case,

we discovered that these statements were

false and fraudulent in every particular,

and we have the written certificate of Mr.

Schmitz, the chairman of the town com-

mittee, and secretary of the cancus, that

the delegates were properly appointed, and

will produce the same whenever called for.

parties, and at the earnest solicitation of

Mr. Vincent, publish this statement to pre-

vent any and all persons from being simi-

larly imposed upon, and unqualifiedly with-

draw his consent, thus fraudulently ob-

tained. We say to you for ourselves, and

Come! Come!!

A mmeting of Union and patriotic citizeus will be held at

To Prepare for Election on Tuesday.

All who are in favor of sustaining the government in a vigorous prosecution of the war against traitors, are invited to attend.

By order of the City Committee. November 31, 1862.

Dont Trade with Your Enemy. "Union! Union!"

This will be the cry to-morrow, and republicans will be asked to vote against their own candidates because their opponents are "Union" men. The republican candidates are as good "Union" men as can be found anywhere, and nothing will be gained by deserting them. Besides how much merit is there in the "Union" cry, when one of the delegates in the convention which nominated the democratic " union ticket" declared the democrats were setting a trap for the republicans, and another one, Mr. Winaus said he hated republicans like rattlesnakes, but was willing to affiliate with them for the purpose of breaking up their organization. Do republicans wish to aid in breaking up their party for the benefit of men who so cordially hate them? That is the question.

4th Ward-At G. Nettleton's office. J. BODWELL DOE, Mayor. Tuneral of Capt. Bentley.

The funeral rites of Capt. Bentley took place yesterday, and we have seldom witnessed a more impressive ceremonial. A portion only of the participants were able to get into the church, where the services were conducted by the Rev. Mr. Kinney, who preached an able sermon, enforcing the general doctrine that an overruling Providence wisely direc's and controls the affairs of mee and of nations. In it, he gave a brief history of Capt. Bentley, and the circumstances attending his death. We understand that this sermon is to be published in pamphlet form, and we shall transfer to our columns that portion relating personally to Capt. B. The procession, which was

Humboldt makes favorable mention o the febrifuge qualities of this article as an Antidote to Fever and Ague, Intermittent and Malarious Fevers, in his extensive South American travels. The countess, wife of the Viceroy of Peru, having experienced the beneficial effects of this Bark, sent it to Europe in 1640. It was sold by the Jesuits for the enormous sum of ils own weight in silver, and was thus called Jestirs Powders. In 1658, Sir John Talbot employed it with great success in France, in the treatment of Fever and Ague, Dyspepsia, Nervous Affections, Loss of Appolite, Weakness and Peblicy, Palpitation of the Beart, Diarches, &c , under the name of English Powders THE FALL TERM WILL COMMENCE on Monday and in 1679, he sold the secret of its origin to Loul XIV, by whom it was divulged. We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindle I by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the me and to detheir work well. They are hid away in secret piaces, where it would be the production of the control of They are hid away in secret places, where it would be impossible to have at their or mmand the proper mechanical appliances. It is only by doing a great business, and having extensive transfacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always hable to get out of order, and are sure to cost considerable trouble and money to keep then in repair. The qualities to be looked for in a machine are: certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor. Machines to combine these essential qualities, must be made of the best medal and finished to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the fluest possible working order. Our machines, as made by us, will earn more money with less labor than any others, whother is imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

SINGER & CO.'S STANDARD MACHINES

Well known to be the best for Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at \$90,

S the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented, FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing parposes.
Our No. 3 machines are especially adapted to all kinds of light and beavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Har-hess Making, sto., etc. They are of extra size, with an arm long enough to take under it and stitch the larg-test sized dashes. There is scarculy any part of a Trim-mera stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 lock-ular thread. The large machines work as fast as small ones.

we would sak for our Lotter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interiock stitch, and are destined to be as celebrated for Family Sawing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold of the most inferior quality, at higher prices that we charge for the best. The needles sold by us are manufactured especially for our machines. A bad needle may render the best machine almost uselest. One customers may rest assured that all our Branch Offices are fornished with the

In case of small purchases, the money may be sentin postage stamps or bank notes.

An Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, werking capacities, and the best methods of purchasing, cun obtain it by sending ous, or any of our Branch Offices for a copy of

which is a beautifully illustrated Pictorial Paper. It will be sent Gratis

We have made the above Reduction in Prices with the two-fold view of benefittin; the public and ourselves. The public have been swindle 1 by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. They makers have not the means to do their work well: They are hid away in secret places, where it would be impossible to have at their cammand the proper mechanical appliances. It is only by doing a great business, and having extensive raunfacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly blade, are always labele to get out of order, and are sure to cost considerable trouble and money to keep thornin repair. The qualities to be looked for in a machine are: certainty of correct action at altrates of speed, emplicity of contraction, great durability, and rapidity of operation, with the lust labor. Machines to combine these essential qualities, must be undeed the best medial and finished to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the fluest possible working order. Our machines, a made by us, will carry over money with less labor than any others, whother latinitation of ours or not. In fact, they are cheaper than any other machines as a gift.
